Contents

This contents section gives the content of this main handbook volume only.

There are, in addition, two other volumes, each of which has its own contents section: the appendices volume and the samples volume.

A. IT career structures & this handbook.....	1
A1. A personal note.....	1
A2. Why the interest in IT career structures?.....	2
The late 1990s.....	2
Today's career structures	2
A3. Approaches followed.....	3
A4. Structure of the handbook.....	4
B. What are career structures and job families?	6
B1. The job family model.....	7
The Y-shaped career path	8
Sample structures	9
Alternative representations of career structures	10
B2. Language	12
Jobs and job families	12
The role.....	13
The community or clan	13
C. Why introduce a new IT career structure?.....	14
C1. Some common reasons	14
C2. Clarifying the business benefits.....	15
Can an IT career structure help business performance?	15
Can a new career structure reduce costs?	15
Quantifying the benefits	16
Costs: the pay bill.....	16
C3. Getting buy-in from managers.....	18
Changing perceptions.....	18
The use of diagnostics.....	19
C4. Getting buy-in from employees	19
C5. When not to develop an IT career structure	20
D. Links to HR processes.....	21
D1. The career structure's central role.....	21
D2. The impact of HR processes on the project	23
D3. Impact on the scope and format of profiles	24

E. Scope of the project	25
E1. The dispersed, devolved IT organization	25
Decentralized organizations	25
E2. The dimensions covered	27
E3. The horizontal dimension	27
Business-facing jobs	27
Internal support roles within IT	30
E4. The vertical dimension.....	32
Director and Senior Manager roles	32
Trainee and semi-skilled IT jobs	34
F. Planning the project	35
F1. The brief for the planning phase	36
Writing down the brief	36
Proposed career structures	37
F2. Deliverables and checklist for the planning phase	38
F3. Steps in planning	39
F4. Confirming the benefits, scope and uses of the project.....	39
Confirming the benefits	39
Confirming the scope	40
Confirming the uses and linkages of the career structure project	41
F5. Defining the deliverables and the toolkit.....	42
The job profile template	42
Sample job profile templates	43
Documenting the agreed template.....	46
The toolkit for the design team(s).....	46
Sample material	47
F6. Organizing and resourcing the project.....	48
The Steering Group.....	48
The Central Project Team.....	50
The design team(s)	51
The use of consultants.....	52
F7. Planning and timescales	53
The end date	53
Timescales.....	54
A sample plan for a small, simple project	55
A sample plan for a large, complex project.....	58
Samples of project plans.....	62
F8. The importance of project management.....	64
F9. Omitting the planning phase	64
G. Some special situations	66
G1. When senior managers abdicate responsibility	66
G2. Tensions between IT and HR managers	67
IT managers' views	67
HR managers' and specialists' views	67
Reconciling views.....	67

H. Communications	69
H1. Employee communications	69
The timing of communications	70
Early project communications	70
Samples of early project communications	72
Mid-project updates	73
End-of-project communications	73
The mechanics of communications	73
H2. Communications with the business	74
J. Designing the outline career framework	75
J1. The two design stages	75
The value of the outline design	75
The outline design team and process	76
J2. How detailed should the outline design be?	77
The iterative nature of the outline design	79
J3. Guiding principles for selecting job families	80
Timelessness	80
Clarity on the criteria for families	81
The generalist v. specialist decision	84
Naming the IT job families	84
J4. The off-the-shelf IT career structure	86
Early BCS models, and CompTIA's approach	86
Skills Framework for the Information Age	87
Using SFIA in designing career structures	88
J5. Outline design: recommended approach	89
J6. Simpler structures: three or fewer families	92
The simplest option: a single-family structure	92
The next step up: two-family structures	95
The three-family structure	100
J7. Career structures for infrastructure and computer services	104
The single infrastructure family	105
Progressive refinement of Infrastructure families	108
J8. Career structures in Applications areas	120
The single family option	120
When is a single family inadequate?	122
The senior individual contributor	122
Business Analysis as a separate family	122
Application Support as a separate family	124
Web-based development as a separate family	125
J9. Career structures for management jobs	126
The single management job family	126
Is a single management family too generic?	127
Adding a project management family	127
The Development plus Service Management option	129
The Relationship-Delivery grid	132
Other management jobs and families	136

J10. Career structures for Consultancy jobs	137
What do we mean by 'consultant'?	137
J11. Identifying the jobs within the families	143
Identifying 'natural' jobs or career steps.....	143
Identifying the jobs in a continuum	144
The end-point first method	145
Testing the proposition	145
Pay considerations	146
The delayed career	147
J12. Testing the outline design	148
Trial mapping	148
Checking career paths	150
Checking relativities	150
K. Developing the detail.....	151
K1. The objectives.....	151
K2. Overview of the process	152
Selecting the design teams	152
Steps in the detailed design process.....	153
How many workshops, how much time?.....	153
K3. Facilitating design teams.....	155
Choice of the facilitator	155
Ground Rules.....	156
Running the workshops	157
Writing up the outputs.....	158
K4. Briefing the design teams	159
The plenary briefing	159
Briefing teams individually.....	160
Questions commonly asked at briefings	160
K5. Establishing the number of jobs in a family	162
K6. Identifying the job purpose and accountabilities.....	164
Job purpose	164
Clarifying Accountabilities	165
K7. Establishing performance measures	168
Gathering a list using the accountabilities	168
Gathering measures in a brainstorm.....	168
Tidying up and documenting the measures	169
K8. Establishing knowledge and skills	170
How structured do you want to be?.....	170
Working without a skills dictionary	170
Working with a skills dictionary	173
K9. Identifying the required competencies.....	175
Introducing the task	175
Identifying competencies without a competency dictionary	176
Using a competency dictionary	177
K10. Establishing career paths.....	185
Omitting career paths.....	186

L. Pay and reward aspects	187
L1. Scenario 1 - the green field pay structure	188
Design of grading and pay structures in Scenario 1	189
Setting the outcomes for individuals.....	190
L2. Scenario 2 - the green field pay structure, delayed	191
L3. Scenario 3 - using existing grades, but with IT pay ranges	192
Fitting layered careers into broad bands	192
Fitting delayed careers into narrow bands	193
Resolving problems before they arise	194
Using IT-specific pay scales with existing grades	195
L4. Scenario 4 - use of existing grades and pay bands	196
L5. Some common dilemmas	197
The job evaluation process	197
Impact analysis of new pay structures	198
Should the pay changes be optional?	199
M. Implementation and after	200
M1. Mapping	200
Mapping the job or the person?	201
Horizontal mapping	202
A framework for vertical mapping.....	203
The detailed processes for mapping	204
M2. Communications on implementation.....	206
Communicating general information.....	206
Communications regarding implications for the individual	208
Timing considerations	210
M3. Post-implementation activity	212
Making the intranet work for you.....	212
Who owns the families?.....	213
N. Futurethink on careers for systems people	214
N1. The outsourced IT function	214
N2. Off the shelf, into practice	215
N3. The shape of careers to come?	217
Example: job family models in business systems areas.....	217
An alternative model for this area.....	218

Contents

This contents section gives the content of this samples volume only.

There are, in addition, two other volumes each of which has its own contents section: the main volume and the appendices volume.

Sample

S1: Customer Assistant job profile	1
S2: Template of Role Profile – with notes	2
S3: Template of Role Profile - with notes (<i>variant of S2</i>)	5
S4: Role profile – IT Service (<i>with benchmarks</i>)	6
S5: Role profile for Business Analysis family	8
S6: Job profile template.....	11
S7: Software Engineer job profile.....	12
S8: Proposal for five career families.....	15
S9: Outline of Business Systems family.....	18
S10: Outline design of career structure.....	19
S11: A loosely defined outline career structure.....	20
S12: A tightly defined career structure design.....	22
S13: Example of project plan	23
S14: Example of project plan	24
S15: Example of implementation plan for a large project.....	25
S16: Example structure for a design team briefing	26
S17: Example of communication to design team members	27
S18: An early all-staff announcement	29
S19: An end-of-planning communication	30
S20: Example of profile that cites SFIA/ISM functions.....	33
S21: Detailed dual family design (Infra & Applications).....	35
S22: Job profile of Service Delivery	43
S23: Systems Operations family/ Forward Flites plc.....	44
S24: Operations Support family	47
S25: Application manager	49
S26: Management family/ Forward Flites plc	52

S27: Project Management family/ Zedco plc.....	55
S28: Account Management family/ ISS plc	58
S29: Service Management family/ Fifties Co. plc.....	62
S30: Consulting family/ ISS plc	66
S31: Example of guidance for managers on mapping	70
S32: Example of a communication document.....	77
S33: Sample of letter conveying individual outcome.....	82
S34: Hybrid profile & development plan	83
